Spring 2007

For an 8th year in a row, a group headed towards Green Bay for a **Guys Weekend**. Since Stove took the lead in coordinating the event, he was able to get some free labor to help with insulating his attic and building kayak storage before the real fun started. Saturday evening included trying a little karaoke while checking out the Manitowoc nightlife, and Sunday involved some traditional tailgating prior to taking in the Packers-Saints game.

To cover the cost of our tax-exempt filing fees, we took on a **Roofing Fundraiser** this fall. In addition to just tearing off old shingles and replacing them with new ones, we also replaced a skylight and added a porch roof. This extra effort and quality work resulted in the homeowners doubling their original donation. A big THANKS goes out to all the guys that helped throughout the extended weekend.

For several weekends throughout October, a handful of members represented Team Ready at the construction of a **Habitat for Humanity** house in Stevens Point this year. After helping get the foundation prepared for the slab to be poured, our crew returned to build the exterior walls so the roof could be set into place before winter arrived.

This year's **Winter Banquet** was hosted by Josh & Renee. In addition to the annual business meeting and Brian's slide show retrospective of the year, we presented the inaugural service and contributor recognition awards. Team Ready key rings and mugs were given for specific levels of service hours. And special mementos and custom plaques were given to the individuals and couples that made significant financial contributions, hosted a social event or coordinated one of our major service projects.
